

Our Vision

To transform communities by leveraging the authentic leadership of former gang members who understand the streets firsthand. Gangs in Peace envisions a future where every youth has the opportunity to thrive, supported by mentorship and resources from those who have overcome similar challenges

Our Mission

At To provide mentorship, education, and resources that empower youth and deter them from gang involvement. We are dedicated to creating a supportive network that guides young individuals towards making positive life choices.

Who Are We?

Founded and led by some of the original gang leaders in the state, Gangs in Peace offers a unique and unparalleled approach to gang intervention and youth empowerment.

This is not just another organization; we are a boots-on-the-ground, ears-to-the-street, been-there-done-that group of men with real answers to our street dilemmas.

Our model is authentic and irreplaceable. Who better to guide our youth toward success than those who truly understand and directly influence the streets?

Redefining Culture- and
Getting A New
Generation Started
In Peace,
We are GIP-
G.A.N.G.S. in Peace.
